Read all about Courtenay & Zach's big day!

Bride's Full Maiden Name: Courtenay Harrison Pyburn

Groom's Full Name: Zachary Herschel Bullock

The meeting:

We met at Auburn while Zach was in his first year of graduate school for Accounting and I was a junior studying Apparel Design and Production Management. It was quite literally love at first sight! Our paths had never crossed directly but he was good friends with my brother in law and older sister, so we kind of knew who one another was when we met. He began his career in Birmingham while I finished school, he proposed in April after I graduated in December and we chose to begin our lives together in New York City!

Wedding Date: November 3rd, 2018

Venue and City: Shoal Creek Country Club, Birmingham AL

Honeymoon Location: New York City! But we are planning something very exciting for ourselves...

Photographer : 509 Photo

Florist: Wild Things

Wedding planner : Megan Wyatt

Gown Designer: Lela Rose

Favorite memory from the wedding weekend:

My favorite memory was our first dance.. not because it was what we planned.. We were introduced and the lead singer called me up to the stage and said that the iPod wasn't working so our song couldn't play. He asked me what I wanted them to play and I said, "Oh, I don't care, something about love!" To this day we aren't sure what we danced to, but we didn't care! We were so incredibly happy and thankful to be dancing as husband and wife.

Something Borrowed:

My mom's beautiful veil, scattered with pearls all over. She has always had the best taste.

Something Blue:

Our getaway car was a blue Bronco that my neighbor (who is like an older brother to me) owns.

Something Old:

The garter that has been passed down from my mom and her sisters, to my sister and then to me! My grandfather has written down all the dates and names of the Renneker girls who have used it...it was so special to me.

Something New:

My dress! My favorite thing about my Lela Rose dress is the fabric. It is this beautiful blush floral jacquard fabric that you can't tell is blush and ivory until you are up close.. I am a sucker for amazing fabrics.

Favorite item purchased (or received as a gift) from Table Matters:

My favorite item is the [Juliska Country Estate coffee mug](#). I love the little hot air balloon detail, reminds me to reach for the skies!

Most practical item purchased (or received as a gift) from Table Matters:

My most practical item is honestly the [Vietri Hibiscus vase](#) collection, because it brings so much joy to our small apartment! I love to buy flowers and spruce up our place. It reminds me of our home that I love so much, and all the people who supported us during this season!

A few other fun details...

My earrings were Liz Legg from Etc Jewelry
The groom's cake was actually Big Spoon Creamery sammies!
Wild Things Flowers accommodated for my sweet pups and made wreaths for them!
My getaway outfit was Isabel Marant leather pants from Etc and top from Kate Spade at the Summit.

We wish these 2 a lifetime of happiness together!
